(+380) 63 60 52 462

The reason I chose the web development field is the great pleasure of visualizing the programming logic of my code.

SKILLS

- React.js, Node.js
- HTML, CSS, JavaScript
- SASS, Bootstrap, Pug / Jade
- GitHub, Git
- Upper-intermediate English

EXPERIENCE

Babyn Yar Holocaust Memorial Center - *Manager of digitization of documents*

January 2022 - March 2022

During my internship at the Babyn Yar Holocaust Memorial Center, I honed my skills in digitizing archival documents, handling large datasets, and streamlining processes by automating routine tasks in Google Sheets.

Native Apps - *HTML-Email developer*

August 2023 - Present day

I've been working as an HTML-email developer, keeping our company's huge email flow effective and up-to-date. While this isn't the long-term career path I'm interested in, I've gained invaluable UI/UX and web development skills.

PROJECTS

pheidippides.js - <https://github.com/RostyslavGitHub/pheidippides>

I started this project to help organize the email work-flow and increase the speed of the development of HTML templates. At first, it was just a few snippets to make the code cleaner. But in the end, it turned out to be my own framework that introduces JS to template development. You can learn more in the readme on GitHub.

clothing-store - <https://clothing-store-by-rostyslav.netlify.app>

The clothing store is a recent project for my portfolio. I built it with React.js.

DAKO-digital-funds-report-system -

<https://github.com/RostyslavGitHub/DAKO-digital-funds-report-system>

I developed a project using Node.js and Google Sheets during my summer university practicum that automates metadata extraction from digitized archive documents at the State Archive of Kyiv Region. The institution is currently utilizing the system.

My portfolio - <https://rostyslvportfolio.netlify.app>

Apart from these projects, I've crafted diverse websites covering various themes such as a travel blog, a pizza restaurant, a web archive, a school site, and more.

EDUCATION

Taras Shevchenko National University of Kyiv - *Archival studies and records management*

2022 - 2024
